

Customer Checklist

During the cold winter months, it is important to prepare your vehicle for all weather conditions.

Listed below are some of the important checks that you can carry out on your vehicle

■ Anti-freeze levels

Keep your vehicle's antifreeze and water mix to a 50/50 ratio.

■ De-icer to windshield solution

Remember to top your windshield solution up with de-icer.

■ Ice scraper & shovel

Always carry an ice scraper for those frosty days & shovel in case your vehicle should get stuck in a snow drift or ice.

■ Air pressure & tread depth (winter tyres if needed)

Keep your tyres safe for winter driving.

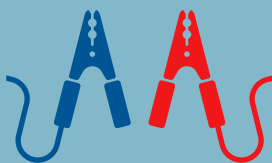

■ Emergency kit

Store an emergency kit in your car for use in the event of any difficulties.

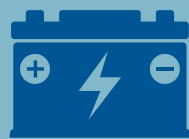

■ Petrol/diesel

Keep your fuel topped up before long journeys to avoid being caught out.

■ Jumper cables

Keep a set of jump leads in your car in the event of engine failure.

■ Battery

Perform regular checks on your battery during winter months when it is more susceptible to issues.

■ Lights

Check interior and exterior lights are fully functioning, headlights are aligned correctly.

■ Brakes

Check your brakes regularly to ensure your utmost safety in your vehicle this winter.

■ Exhaust

Make sure your exhaust is healthy and has no leaks.

■ Heaters

Make sure your heaters and defrosters are all in good working order to keep your car warm this winter.
